Revised July 24, 2006

Step 1 – Determine placement of Gift Card button on H.S.I.

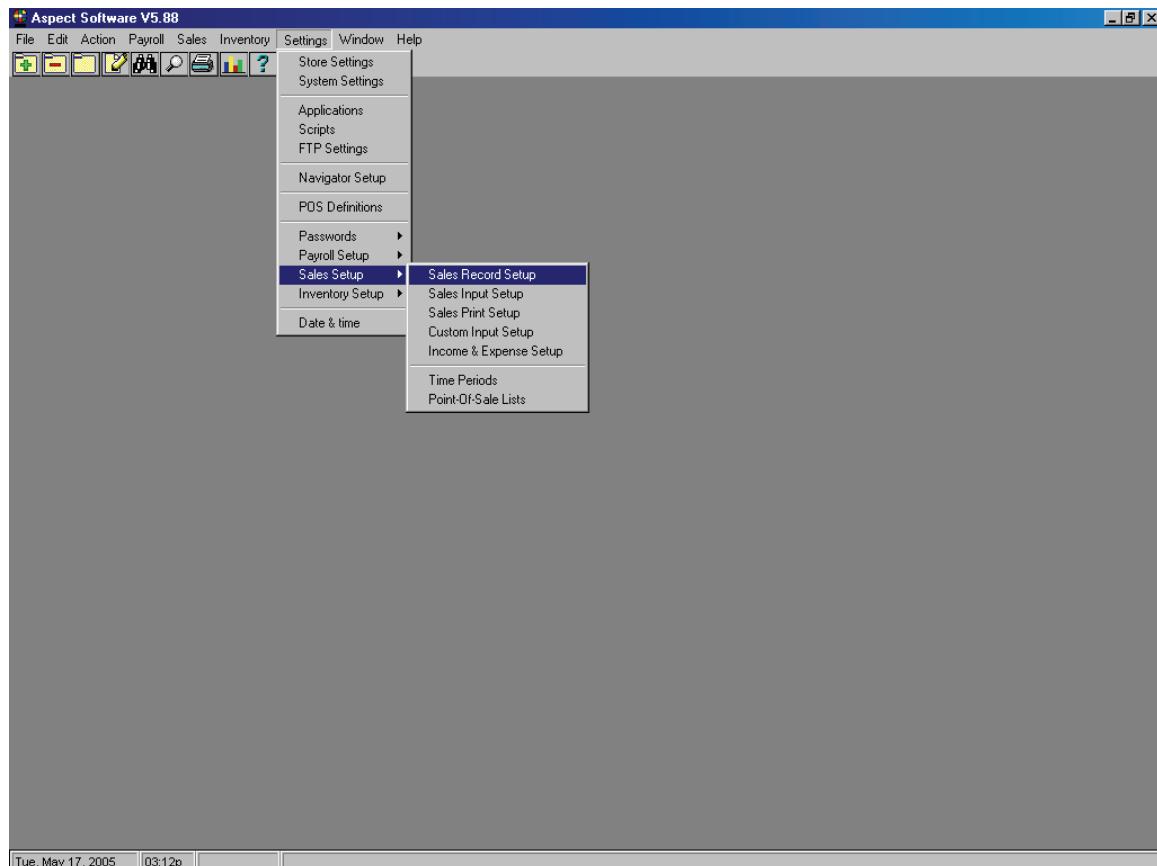

Open H.S.I. Manager > General > Payment Instructions

For instance, the Gift Card is positioned here in “Tender 10”. The buttons are numbered 1 – 5 on the left and 6 – 10 on the right.

Step 2 – Open Aspect and go to Sales Record Setup

Open Aspect > Settings > Sales Setup > Sales Record Setup

Step 3 - Change the Formula / Input Field in Aspect for Tender Gift Card

Scroll down the list and locate the line labeled “Tender Gift Card”. Double-click on this line and note the value in input box named “Field”. It will be something like *107,4. This means the number is being imported from column 4 on line 107.

You will need to change the first number to reflect the current location of the gift cards in HSI. To determine this number, add 101 to the location of the tender in HSI. For example, if your gift card is in position 10, change the contents of the input box to *111,4. If your gift card is in position 6, it would be *107,4. Do not put quotes around it or a period at the end or anything else. Don’t remove the asterisk (*). Just change the number and press Ok.

You will also need to change the line labeled “Tips Gift Card”. These come from the same line as the tender, but they are in column 5. So, double-click on “Tips Gift Card” and change the first number to whatever you entered for the tender but leave the “,5” at the end. For example, you might change “*107,5” to “*111,5”. Again, leave the asterisk and don’t put quotes or anything else in that wasn’t there in the first place. Press Okay.

Close the Sales Record Setup

| 190 | Sales Mixdrnk N-Z | Standard | | Import from file | Journal Totals | *249,5 |

You may also want to compare the default Sales Record Setup to the used Sales Record Setup. To do this, while in the Sales Record Setup, right click and choose "View Defaults." A side by screen comparison will appear. If you scroll down to Tenders and Tips, you will be able to see the exact location of the Gift Cards and/or Gift Certs.

Step 4 - Open Aspect > Settings > Sales Setup > Sales Record Setup

- Change the input field for line 279 (Gift Cert Sales) to → *159,3

Step 5 – Check your sales. If necessary, you will have to reimport sales. To reimport sales, follow these steps:

In version 5.65 and later, you can import past sales by clicking the Import button in the Edit Daily Sales window.

In earlier versions, select Sales Summary Report from the Sales menu. Enter a range of dates that includes the day(s) you want to import. After the report opens, right-click on the day you wish to import, select Import Past Journal from the pop-up menu and press Ok. Sales for the day should import.
